Schedule intelligent Pentair pumps

Control LED lighting and color

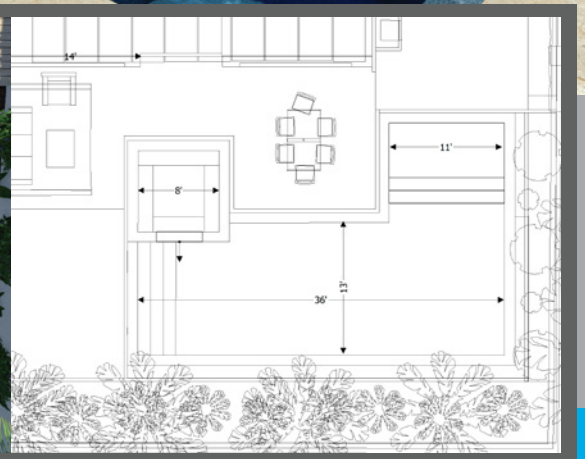

Activate water features

DESIGN & RENDERING SERVICES

PRE-VISUALIZE YOUR DREAM IN 3D

A pool is a large investment that will offer decades of enjoyment, but in some cases it could be wise to purchase our 3D design and rendering service to preview how the pool will fit into your property. We're able to build scale 3D renderings and help preview design/layout options, water features, tile and finishes, landscaping and even outdoor structures like pergolas, lanais and outdoor kitchens.

Our 3D design renderings feed right into the CAD system, streamlining the engineering drawings required for permitting.

PRICING:

- POOL ONLY.....**\$1500**
- POOL & SPA.....**\$2000**
- POOL, SPA &.....**\$2500+**
OUTDOOR LIVING
SPACE ADDITIONS

Fees for the rendering design work are paid separately, in-advance of the pool contract and include the following:

- Site visit and scale 3D modeling of property
- Approx 5 still images from various angles
- 3D "flythrough" video
- 2D layout plan with dimensions
- CAD compatible DXF file for engineering
- Up to 2 layout options
- Up to 3 revisions

DETAILS & FINE PRINT

WHAT'S INCLUDED

Preliminary

Drafting, Design, engineering and ESCP permitting.
DPP expedition, Permits procurement and Fees.

Concrete Deck

350 Square foot of Concrete included in a colored stamp
We can use the concrete allocation as you wish.

Pool Equipment

We outfit the pool with all Pentair Equipment,
who is hands down the best there is.
Variable speed Intelliflo Pump.
Oversized Sand Filter using a T60 filter plus a 2" side port valve.
2 LED lights using GLOBRITES.
These are white in color and low voltage with a large 300-watt transformer.

Plumbing

We use individual plumbing lines for each INLET line.
The means there is variability and redundancy built in.
We have dual split main drains, a skimmer, and a dedicated vacuum port, all
with valves to operate accordingly.
We use heat bent Schedule 40 pipe, which reduces glued unions.
Our plumbing installers are regulars, and do this day in and day out.
The plumbing is kept pressurized through the construction process, so we
know its watertight.
We use 2" schedule 40 and quality unions on all projects.

Steel

We specify #4 Rebar and hand form, bend and install per project.
We can include benches, Baja Shelves and Steps anytime and
these are costed per request and according to detail.

Gunite

We own our own Gunite Rig, and install our own Gunite.
We are confident our Pool Gunite shells are the best in Hawaii.
Our radius circles are true and not lopsided.
3500 PSI and hand carved.

Pool Interior

Waterline tile from our range of selections is included.
We normally install a step and bench demarcation tile that compliments
the waterline.
We include a Quartz plaster called Quartzscapes in color of choice from
what's stocked locally (many colors)
We use color coordinated fixtures like main drain covers and inlet
fittings.

Electrical

All our jobs include a full electrical service.
We assume the homes main supply is sufficient to allow service to be
allocated to the pool though.
Yes, all new electrical service is included with this assumption.

Access and Excavation

We will remove all access walls as needed
We normally need just over 6'8" to access to dig with no extra costs
We include soil removals with our projects.
We DO NOT include extra work regarding Rock, Coral or Boulders.
If we encounter these, it'll be really obvious and unfortunate.
We do know Generally where the areas that have these soils, so we'll
normally advise accordingly.

The Warranty

3 years on all Pentair Equipment
Lifetime on pool shell
2 years on the entire project
**Colors are not warrantable in any manner or condition

Payments

10% deposit upon signing
30% upon layout and mobilization
30% 3 days prior to Gunite pool shell install
25% upon tile, and day of concrete install
5% upon morning of plaster install

Completion

Completion commitment time right now is 6 months. This can fluctuate
and is a general estimate. Aquatic Solutions will provide assistance to
close permits as needed. The permit closure is not a term of payment.

The Spa

We use Air/Water Spa jets.
Most of the spas built here in Hawaii use only WATER jets. So, we truly
build the spa as it was intended.
We include 6 Spa jets in every spa.
Dual VBG inlets assure safety and allow proper flow.
We normally situate the spa 18" above the deck to allow a sitting area, but
this is adjustable.
We include Tile waterline, Color coordinated quartz interior
and color coordinated fixtures.

Ultratemp Q series 120,000 BTU Heat Pump or Hawaii stocked equivalent.
Variable speed Intelliflo Pump.
LED GLOBRITE light for the Spa.
LED GLOBRITE light for the Spa.
Oversized Sand Filter using a TR100 filter plus a 2" side port valve.
Pentair Automation Control Center with Smart Phone app.
It can be heated and lit using the panel included or via Smart Phone.

WHAT'S NOT INCLUDED

FENCES, LANDSCAPING & SPRINKLER SYSTEMS

WE ARE NOT RESPONSE FOR ACCESS DAMAGE, EXIT DAMAGE OR TIGHT ACCESS ISSUES INCLUDING:

FENCES, WALLS, SPRINKLER HEADS, LANDSCAPE REPAIR OR REPLACEMENT

ANY ENCUMBRANCE ENCOUNTERED UNDERGROUND. (WATER, SEWER, IRRIGATION, ETC.)

EXTRA WORK REGARDING ROCK, CORAL OR BOULDERS

ANYTHING NOT SPECIFICALLY INCLUDED

PRICES ARE CONTINGENT UPON ACCESS AND ADEQUATE POWER TO PROPERTY
